[科目の概要] <p>English IA aims to provide students with the practical skills that they will require for a successful career in an increasingly multinational, and globalized economy and labor market of modern-day Japan. With a focus on 'listening and speaking', it teaches a wide range of real-world communication skills that employers seek, such as social skills, basic interview and presentation skills, and basic writing skills (e.g., writing drafts of spoken reports), in a variety of settings, with many opportunities for students to engage in meaningful practical exercises.</p>		
[[授業科目群]・他の科目との関連付け]・[なぜ、学ぶ必要があるか・学んだことが、何に結びつくか] <p>As alluded to above, with the increasing diversity in background of both employees and employers alike, driven by various national and international dynamics, and with English language often the medium of communication, effective communication skills are therefore paramount in order to thrive in these diverse and dynamic societies and business environments.</p>		
[科目の到達目標(最終目標・中間目標)] <p>The aim of the module is to equip students with the skills that they require to be able to communicate effectively whether in personal, social, or business situations. With a textbook specifically selected to enhance that aspect of learning, it emphasizes listening and speaking skills along with critical thinking, whilst also developing writing skills. The exercises provide excellent opportunities for the practical application of skills learned. It is the expectation that proficiency in the use of English language, of the nature studied, will be improved by the end of the semester.</p>		
[学生の「授業評価」に基づくコメント・改善・工夫] <p>The teachers should:</p> <ol style="list-style-type: none"> 1. check that students understand the course content correctly. 2. keep pace with the students' progress (as a result, the course schedule shown below may be subject to change). 3. help students learn by themselves and provide support and advice for further learning.
