[担当者] 江連 敏和 EZURE Toshikazu	[オフィス・アワー] 時間: To be announced 場所: #615	[授業の方法] Lecture
[科目の概要] This course is designed for students who have an interest in English grammar for business and everyday life. Students can learn the most useful English grammatical usages and vocabularies. And then, they can also practice them in class. These practices will change the students' knowledge of school grammar to more practical and communicative one. English grammar is essential for improving English skills such as speaking, listening, reading, and writing. So, students will have a lot of opportunities to repeatedly learn and practice English grammar in real business situations, where we need to give an instruction, to write an email, and so on. There will be a number of contextualized exercises to develop the students' practical English ability in class. It is hoped that students will realize that their skills have been gradually improved.		
[「授業科目群」・他の科目との関連付け]・[なぜ、学ぶ必要があるか・学んだことが、何に結びつくか] Educational systems of English grammar in Japan may be quite efficient. We can learn basic structures of English at high school. Unfortunately, however, we have not enough practices to apply our knowledge to real situations. So, most of us cannot use English well, though we have invested a lot of time and effort for learning. Thus, a lot of workshops will be held to refine our skills while expanding knowledge.		
[科目の到達目標(最終目標・中間目標)] The purpose of this class is to enhance the knowledge of English grammar and vocabularies of students, and finally they find their clear goals to do with the knowledge acquired here. The goals will develop learning strategies in their life. For instance, if they need higher scores of several English tests such as TOEIC and TOEFL, they feel to study the systems for these tests. Or, if students would like to have better communication with people all over the world, they will focus more on spoken language.		
[学生の「授業評価」に基づくコメント・改善・工夫] The improvements of this course are below: 1. The teacher should keep an appropriate pace in the class. 2. The teacher should solve students' problem and advise them both in class and through office hour. 3. The teacher should improve students' English ability.
