[科目の概要] Giving speeches/presentations is part of our daily life, for instance, when we speak to other people, when we discuss a topic, when we share our ideas/opinions. The objective of the module is to guide students to attain a reasonable level of competency in writing and delivering a presentation. Students will engage in meaningful practises in class to study various strategies used in presentations. They will analyse sample speeches/presentations and PowerPoint slides. Furthermore, they will learn that public speaking or presentation is not simply a one-way sharing of information but a two-way reciprocal exchange of information where both the speaker and audience are equally involved. Please be advised that a good portion of the module is taught in English, thus it is ideal for students at an intermediate level of English.
